LOCATION

The property is situated in Stafford town centre on the north side of Bank Passage between its junctions with Market Square and Salter Street. The immediate area is characterised by a mixture of professional, retail and restaurant activity and, being located just off the main shopping thoroughfare, the premises are also close to a number of major nationally known high street retailers.

Junctions 13 and 14 of the M6 motorway are approximately three and two miles distant respectively and provide access to Manchester and the north-west, London and the south-east by way of the M1 link and Bristol and the south-west through its connection with the M5. The town's main-line railway station provides Intercity connections throughout the national rail network.

DESCRIPTION

The property comprises a linked office building of two-storey brick and tile construction and has for some years been used for the purpose of a solicitors' practice but is now surplus to operational requirements. The accommodation provides space in a cellular format at ground and first floor levels.

Suitable for a variety of alternative professional purposes, the availability of the premises in the conservation area offers an infrequent opportunity to acquire an attractive freehold building in the town's central business district with potential for residential conversion.
